State-of-the-Art Technology & Infrastructure

Leading the way in Sustainable Wind Energy Management

Your trusted source for Gearbox Solutions

### Our Strength

30+ Years of Experience

1500+ Wind Turbines Catered

500+ Prestigious Clients

100,000+ Sq. Feet of Total Area

50+ Products Available

7+ Countries Exported

## Our Products

### Wind Turbine Gearboxes

Main Drive Gearbox- Upto 1 MW for Multi - brand Wind Turbines

Yaw & Pitch Drive Gearbox: Upto 2.5 MW for Multi - brand Wind Turbines

### Industrial Gearboxes

Power rating from 0.25 KW to 2000 KW power transmission

Reduction Ratio from 1:1 to 1:4000+

### Design & Manufacturing of Gearboxes:

Worm Gearbox

Bevel Gearbox

Planetary Gearbox

Extruder Gearbox

Helical Gearbox

Double Helical Gearbox

Crane duty Gearbox

Motorized Gearbox

Double Helical Pinion Stand Gearbox

Mill Gearbox

Combinations

### Accessories for Multi - brand Wind Turbines

Windmill Main Shaft

Windmill Brake Disc

Shrink Disc

Plumber Block Housing

Bearing Housing (V27, V47, G5X), etc

### Internals for Gear boxes

#### Profile ground gears

Internal & External Diameter - Upto 1250mm  
Module - Upto 24

#### Cut Gear

Diameter- Upto 2000mm

Module-Upto 32

Spur gear, helical gear, double helical gear, spline shaft, worm wheel, worm shaft, bevel gear, rack and pinion, pinion shaft upto 2-meter length etc.

## Refurbishment & Service

### Wind Turbine Gearboxes

Top Quality In-House Servicing Facility

### Industrial Gearboxes

2000+ Industrial Gearboxes expertly serviced.

At Kay Arr Engineering Services, we specialize in servicing gearboxes across a wide power range, from fraction KW to MW range.

At Kay Arr, we specialize in the reverse engineering of all imported and complicated gear systems with numerous intricate parts.

Our methodology ensures that same rating is verified & matched.

We also provide redesign services & have simulation facilities available to ensure optimal performance.

## Our Quality Commitment

At Kay Arr Engineering Services, we don't just meet standards—we exceed them.

We design, manufacture, and service top-quality gearboxes and their spares for windmills and various industries, consistently delivering on time and meeting all customer requirements.

Our dedication to adopting the latest technologies and maintaining the highest safety and environmental standards ensures that we deliver solutions that truly make a difference.

Discover the difference with Kay Arr Engineering Services, where we transform engineering challenges into opportunities for innovation and excellence.

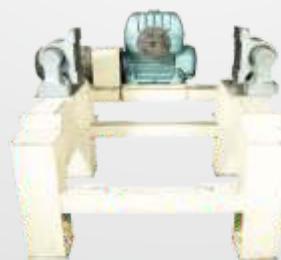

## Cutting-edge Machineries

## Quality Assurance

## Test Bench Facilities Suitable For Various Wind Turbines

## Design & Development
